NEW DIGITAL FRONTIER IN THORACIC SURGERY

DR.PUNNARERK THONGCHAROEN

Chairman South East Asian Thoracic Society the 2nd SEATS MEETING SEPTEMBER 21-24, 2023

Dear colleagues

As the vice president of the South East Asian Thoracic Society and the organizing chairman, it is my distinct pleasure to welcome you all to the annual meeting for 2023. This year's meeting is taking place in Bangkok, Thailand, one of the most vibrant and enchanting cities in the world.

The South East Asian Thoracic Society was founded with the mission of promoting thoracic sur gical care across Southeast Asia, and since last year, the annual conference has been becoming our most important vehicle for building connections, sharing knowledge and promoting the standard of care. The rich history and profound cultural and healthcare setting diversity of this region make it a particularly exciting place to work, and we are thrilled to welcome attendees from South East Asia, Asia and across the globe to this year's event.

This year's conference promises to be one of the most exciting and dynamic yet. Featuring a wide range of presentations, workshops, and multidisciplinary discussions, this year's program has been carefully crafted to ensure that all attendees, regardless of their level of experience or specialty, will come away with valuable insights and new strategies for promoting high standard of care for thoracic patients in the region.

So, on behalf of the entire South East Asian Thoracic Society, we extend a warm welcome to all of you. We look forward to a productive and inspiring few days of learning, networking, and sharing ideas.
